TRAINING OFFICERS MEETING

Document No. 446

Thursday
18 Feb 54

NO CHANGE in Class. ☐

☐ DECLASSIFIED

Class. CHANGED TO: TS S (C)

DDA Memo, 4 Apr 77

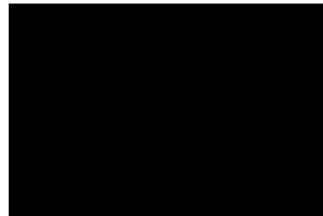

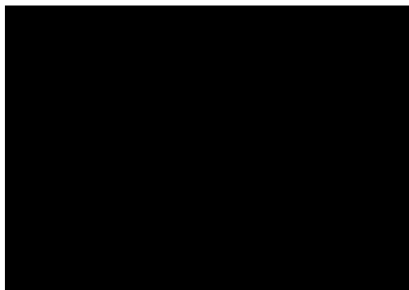

Auth: DDA REG. 77/1763

Date: 1 Feb 78 By: 022

25X1A

Attendance:

25X1A

25X1A

25X1A

25X1A
25X1A

1. [REDACTED] gave a summary of practical exercises used in the [REDACTED] course.

25X1A

2. [REDACTED] discussed modification of the next CFA, indicating that instruction in caching would not be included in this running since [REDACTED] would be absent.

25X1A

3. Enrollments in Phase III

25X1A

[REDACTED] pointed out that a survey of green sheets indicated that only 21 of the 43 students currently enrolled in Phase III were carried over from Phase II, and 14 of the present students in Phase III have had no previous Phase II or OC training according to the records available to the staff.

25X1A

This information brought up the question of criteria currently used by the training officers for granting waivers for Phase III and [REDACTED] suggested that when operational experience was considered as an equivalent for Phase III such experience should include at least one tour overseas involving successful handling of agents and not merely peripheral contact with agent operations.

4. Procedure in Developing Training Evaluations

25X1A

[REDACTED] made an excellent presentation of the methods and techniques used by instructors in developing training evaluations of students enrolled in Phase II, and answered to the satisfaction of all present questions relating to these procedures.

5. Interim Evaluations

The question of providing interim evaluations on unsatisfactory students was briefly discussed. It was agreed that such reports will be rendered to the respective training officers, DD/P, through A & E Staff at the completion of the second week of the course and on a weekly basis thereafter. Any major incident involving security, illness, or other catastrophe, should be reported immediately. Interim reports on OTR personnel doing unsatisfactory work are to be submitted by separate memorandum to the Director of Training.

6. Training of [REDACTED]

25X1A

25X1C

25X1A

25X1A

25X1A

[REDACTED] made reference to three recent requests for training. These requests were referred to [REDACTED] DD/P, for a decision on the question of whether [REDACTED] is to be exposed to [REDACTED]. A definite decision was rendered that DD/P will not ask Training to jeopardize the cover of [REDACTED] by undertaking projects of this type. It was decided that the Clandestine Services Training Committee should initiate appropriate action in order to disseminate this information to the staffs and divisions of DD/P.

25X1C

7. Refresher Training

25X1A

25X1A

[REDACTED] made reference to the fact that instructors in OTR were currently developing a list of CSI and Agency regulatory issuances which will serve as a required reading list for all returnees entered in the Refresher Training Program. He requested DD/P training officers to secure recommendations for such a list from their respective staffs. [REDACTED] felt, after reviewing suggestions made by DD/P training officers, that the Refresher Program could be conducted within a period of approximately two weeks. The suggestion was made that the program be extended to three weeks and students be given an opportunity to return to their offices at 1500 each afternoon. This suggestion was accepted.

8. Revision of Specialized Courses

25X1A

There was considerable discussion concerning the future revision of specialized courses including such programs as Communist Party Operations Course, CE, Denied Areas Operation, CFA, RO; and the probable elimination of such programs as Sabotage. It was proposed by [REDACTED] that a group be assembled [REDACTED] to devote two to three days discussing details of such revision. No firm arrangements, however, were completed at this time.
